

Mega Menu Installation Instructions for SharePoint 2019

“Modern” Pages

1. Deploy the farm solution as described in the instructions found on the product page.
2. Download the web part (“SP2019” version) zip file from the product page on our website at <http://www.amrein.com/apps/page.asp?Q=5925>
3. Upload the file to the Sharepoint App Catalog at “/sites/AppCatalog” (“Apps for SharePoint”).
4. Activate the “AE Mega Menu Web Part” feature via “Site settings/Site collection features”
5. Configure the Megamenu via “Site Settings/Amrein Engineering/Mega Menu settings
6. Verify that the Megamenu works OK on classic pages
7. Extract the **ae-megamenu.sppkg** file contained in the downloaded zip file
8. Upload the “ae-megamenu.sppkg” file to the Sharepoint App Catalog at “/sites/AppCatalog” (“Apps for SharePoint”).
9. Add the “AE Megamenu” App to your “Site contents” on each site that should display the Megamenu:
